

CACTUS: PLACEMENT IN WINTER

The temperatures shown here are purely indicative and slightly rounded upwards to avoid putting the plants at risk

OUTSIDE

Minimum temperatures
+2° to -6°

COOL

Minimum temperatures
+5° to +12°

HOME

Minimum temperatures
+15° to +18°

GENUS

NOTES

Acanthocalycium

Acharagma

Ancistrocactus

Some species still classified as Sclerocactus tolerate temperatures as low as -15°

Aporocactus

Water sparingly once a month

Ariocarpus

Arrojadoa

Astrophytum

Aztekium

Blossfeldia

Browningia

Carnegiea

Cephalocereus

Cintia

Cleistocactus

Copiapoa

Coryphantha

Cumulopuntia

Cylindropuntia

Denmoza

Discocactus

Water sparingly once a month

Disocactus

Water sparingly once a month

Echinocactus

Echinocereus

Some species can withstand up to -15°

Echinomastus

Echinopsis

Some species can withstand up to -10°

Epiphyllum

Water sparingly once a month

Epithelantha

Eriosyce (=Neoporteria)

Escobaria

Espostoa

Eulychnia

Ferobergia

Ferocactus

Frailea

Geohintonia

Gymnocalycium

Harrisia

Hattiora

Water sparingly once a month

Hildewintera

Hylocereus

Water sparingly if you notice excessive wrinkling of the branches

Leuchtenbergia

Lobivia

Lophophora

Maihueniopsis

Mammillaria

Some species can withstand up to -10°

Matucana

Lower minimums can cause stains on the stem

Melocactus

Water sparingly once a month

Myrtillocactus

At lower temperatures they may stain

Neobuxbaumia

Obregonia

Opuntia

Some species can withstand up to -20°

Oreocereus

Oroya

Ortegocactus

Adult plants tolerate temperatures down to $+2^{\circ}$

Pachycereus

Parodia (=Notocactus)

Pediocactus

These plants can withstand up to -10°

Pelecyphora

Peniocereus

Pereskia

Pereskiaopsis

Pilosocereus

Polaskia

Pygmaeocereus

Rebutia

Rhipsalis

Water sparingly once a month

Schlumbergera

Water sparingly once a month

Sclerocactus

Selenicereus

Stenocactus (=Echinofossulocactus)

Stenocereus (=Machaerocereus)

Stetsonia

Strombocactus

Sulcorebutia

Tephrocactus

Can overwinter in slightly moist soil

Thelocactus

Trichocereus

Turbinicarpus

Uebelmannia

Water sparingly once a month

Weingartia
